

R-Go Split Ergonomic Keyboard, QWERTY(US), black, wired

Keyboard - USB - QWERTY - US - black

Group	Input Devices
Manufacturer	R-Go
Manufacturer item no.	RGOSP-USWIBL
EAN/UPC	8719274490753

Description

The R-Go Split Break keyboard is an ergonomic split keyboard with integrated break software. This keyboard stimulates you to take regular breaks. This keeps the blood circulation of your body up to standard, prevents overloading and keeps you fit during your working day.

The keyboard consists of two separate parts, which you can place in any desired arrangement. This splitting prevents your wrists from bending while you type. Typing with straight wrists reduces muscle tension and prevents pinching of tendons and blood vessels. With one movement the built-in magnet allows you to transform the two separate parts of the keyboard into a compact keyboard . The compact size ensures that the mouse is always within reach. Due to the light keystroke, there is minimal muscle tension while typing. The keyboard is flat, so your hands and wrists are flat and relaxed while typing.

LED colour signals in the keyboard indicate how healthy you are working and when it is time to take a break. As you type, the light changes colour like a traffic light. Green means you're working healthily, orange means it's time to take a break, red means you've been working too long. These subtle colour signals give you simple and positive feedback on your break behaviour. For more information, visit our R-Go Break page .

Consists of 2 parts for maximum freedom
With break indicator
Ultra thin for better blood circulation
Light keystroke for minimal muscle tension
Lightweight, easy to take with you.

Main features

Product Description	R-Go Split Ergonomic Keyboard, QWERTY(US), black, wired - keyboard - QWERTY - US - black
Device Type	Keyboard - ergonomic (split)
Interface	USB
Connectivity Technology	Wired
Localization and Layout	QWERTY US
Colour	Black

Dimensions (WxDxH)	28.8 cm x 13.7 cm x 0.9 cm
Weight	296 g

Extended details
