DESCRIPTION

The Tracer GAMEZONE EVO1 HOT SWAP 63 is a keyboard that players and those who value comfortable work are sure to appreciate.

Basic features

- Mini size (63 keys)
- TNT mechanical switches (mega durability)
- HOT SWAP (replace switches with the keyboard on)
- ANTI-GHOSTING (several keystrokes at once are not a problem any more)
- RGB (top, sides, and bottom)
- TRIPLE MODE (3 connectivity options)

Compact size

Thanks to the mini form factor, the keyboard takes up about 35% less space on the desk compared to a full-size keyboard, which is its great advantage.

Mega durability

The TNT mechanical switches guarantee extraordinary durability of 50 million keystrokes, which makes the keyboard convenient and pleasant to use.

HOT SWAP

HOT SWAP means you can quickly and easily change switches and keycaps to any marketed products while the keyboard stays on.

The included switch and keycap pullers will help you mould the keyboard to your needs.

ANTI-GHOSTING

The ANTI-GHOSTING function allows you to press several keys simultaneously, which is a must for gaming.

RGB backlight

Full RGB backlight and several preprogrammed effects, combined with adjustable backlight intensity and dynamics make the device even more user-friendly.

Full RGB top, side, and bottom light. Preprogrammed effects. Adjustable light intensity and dynamics.

The light can be turned off completely.

TRIPLE MODE

The keyboard offers three ways to connect to the PC: cable (1.5 m USB-C included), 2.4G (receiver included), and three BT 3.0 and 5.2 channels, which improves its functionality and usability.

Other details

Two-position silicone feet and a 2,000mAh built-in battery are additional advantages of the keyboard.

In short, the Tracer GAMEZONE EVO1 HOT SWAP 63 combines functionality, convenience, and comfort of use, which makes it perfect for any user.
