

7m Coax High Resolution Monitor VGA Video Cable - HD15 to HD15 M/M

Product ID: MXTMMHQ7M

The MXTMMHQ7M 7m long VGA cable allows you to connect your VGA monitor or projector at distances of up to 25 feet from your computer, video switch or other VGA device. The high-resolution cable is designed to provide the highest video quality possible through VGA and is ideally suited for high resolution applications of 1920x1200 and above.

This durably constructed coaxial VGA video cable (HD15 to HD15) eliminates the picture "ghosting" and fuzzy images that are inherent to non-coaxial VGA cables, while delivering superior EMI interference protection by using ferrite cores near the connector ends.

This 7m VGA cable is backed by StarTech.com's lifetime warranty.
