Problem	Possible Solution
No power/No display on TV	Ensure the Fire TV Stick 4K is securely plugged into the HDMI port and the power adapter is connected to a working outlet. Verify your TV is set to the correct HDMI input. Try a different HDMI port or power outlet.
Remote not responding	Replace the AAA batteries in the remote. Pair the remote by pressing and holding the Home button for 10 seconds. Ensure there are no obstructions between the remote and the Fire TV Stick.
Buffering or poor streaming quality	Check your internet connection speed. Move the Fire TV Stick closer to your Wi-Fi router or use the HDMI extender to improve signal. Restart your Wi-Fi router and the Fire TV Stick (unplug and replug power). Ensure your router supports Wi-Fi 6 for optimal performance.
