CHERRY STREAM KEYBOARD WIRELESS

The CHERRY STREAM KEYBOARD WIRELESS is the wireless version of the familiar STREAM KEYBOARD. The 2.4 GHz wireless key-board has all the features that have made its wired counterpart so popular. The new STREAM KEYBOARD WIRELESS is the perfect choice for all those who have been waiting for the wireless ver-sion of the CHERRY classic.

The wireless keyboard is plain but elegant, and will appeal to a wide range of tastes. The slim design also reflects current trends. With the feet up or down, it is clear that the wireless keyboard is extremely stable, rigid, and non-slip. This is ensured by the inte-grated metal plate, the two feet and the eight rubber pads on the underside.

At the heart of every keyboard is the key technology. Like all products in the STREAM family, the STREAM KEYBOARD WIRELESS uses CHERRY's own SX scissor technology. This ensures uniquely comfortable, precise and quiet typing. All these attributes lay the foundation for productive work and make the flat keyboard the ideal companion in the office or at home.

The 2.4 GHz wireless connection is also reliable and uncompli-cated. The keyboard comes with a plug & play receiver to con-nected to the PC. Thanks to wireless technology with a range of 10 meters and AES-128 encryption, the desktop is no longer a tan-gle of cables but tidy space for you to work in comfort.

The computer keyboard has a full-size layout and a number pad, which means it immediately feels familiar. There are also useful status LEDs integrated in the CAPS LOCK, NUM and SCROLL LOCK keys.

This feature is usually only found in higher price ranges. The red status LED shows you at a glance whether the Caps Lock key is ac-tivated, for example. In addition, the LEDs flash when you need to change batteries. However, with a battery life of up to 36 months, this rarely happens.

In any work environment, users require certain functions particu-larly often. The CHERRY STREAM KEYBOARD has handy extra keys for the most important functions. These include six keys for con-trolling your multimedia player. Three other keys for the browser, e-mail and calculator can be easily accessed. The lock key is espe-cially invaluable in the office environment. The user can simply press it to log out when leaving the workstation.

Additional flexibility is offered by the CHERRY KEYS software. With just a few clicks, you can configure the office keyboard any way you want.

Environmental protection and sustainability are matters that comprise many aspects. With the CHERRY STREAM KEYBOARD, for example, we have managed to make the packaging completely plastic-free. In addition, the key-board bears the GS ″safety tested″ seal. The only legally regulated test mark in Europe certifies compliance with defined ergonomic and safety standards. All these criteria provide guidance for sus-tainability when buying products, as well as for the health and safety of your employees.

The STREAM KEYBOARD WIRELESS is the perfect wireless standalone keyboard for frequent users with high demands. Based on CHERRY SX scissor technology, the wireless keyboard is quiet, durable and requires no maintenance. It is ideal for anyone who appreciates the advantages of the STREAM KEYBOARD but also wants the benefits of wireless transmission.

HIGHLIGHTS

- Super silent keystroke
- Proprietary SX scissor technology
- Unbeatable typing feel
- Rubberized feet for perfect slip resistance
- Durable key labels
- Keyboard with AES-128 encryption
- Integrated metal plate for maximum torsional rigidity
- Battery life up to 36 months
- Status LEDs indicate and low battery level
- Integrated status LEDs for the CAPS LOCK, NUM and SCROLL keys
- Keyboard with 10 office & multimedia keys
- Low profile
- GS certificate (full size layout)

SCOPE OF DELIVERY

- 2 x AA battery
- Keyboard
- Nano-USB-Receiver
- Manual

TECHNICAL DATA

PRODUCT INFORMATION

Model number	JD-85K
Reliability	MTBF > 80.000 Stunden
Warranty	1 additional year voluntary limited manufacturers warranty
Product approvals	- CE - China RoHS - GS - cURus - Windows Hardware Compatibility - UKCA
Software support	CHERRY KEYS
Operating system	- Windows 7 - Windows 8 - Windows 10 - Windows 11
System Requirements-Hardware	USB-A

TEMPERATURE

Min. operating temperature	0 °C
Max. operating temperature	40 °C

KEYBOARD

Keycap material	ABS
Palm rest	Palm rest not available
USB-Hub	no

Illumination	no
Adjustable feet	integrated
Status LEDs	in keys
Key technology	Scissor
Service life per key (in million strokes)	20 mio. actuations
Max. current consumption (mA) of keyboard	20 mA
Keyboard format	Full-size (100%)
Integrated metal plate	yes
Volume (dB) of keyboard	49 db
N-Key Rollover	no
Anti-ghosting	no
Key encryption	no
Internal memory	no

WIRELESS

USB dongle	yes
Wireless range	10 m
Encryption in wireless mode	yes

BATTERY

Number of batteries	2
Battery type	Alkaline
Battery design	AA
Battery rechargeable	no
Battery replaceable	yes

Battery charging socket   no
