Description

No matter if we work on a computer in the office or in a home study, many of us value devices that work quietly and precisely. Having such users in mind, Natec designers have created a slim and quiet Natec Barracuda keyboard.

IDEAL FOR HOME AND OFFICE
No matter if we work on a computer in the office or in a home study, many of us value devices that work quietly and precisely.
Having such users in mind, Natec designers have created a slim and quiet Natec Barracuda keyboard.

WORK COMFORT AND DURABILITY
The Barracuda keyboard has a slender profile, which allows it to be classified as Slim. In addition, flat and very quiet keys guarantee work comfort comparable to a laptop keyboard.
An additional advantage of the keyboard is the enclosure extended at the bottom part, which supports the wrists and ensures higher comfort of work.

PU COATING
In addition to solutions guaranteeing the comfort of work, the keyboard has also a number of functional amenities.
The keys in Barracuda are covered with a special layer of varnish to prevent abrasion (PU Coating technology).
An additional convenience is the use of 12 function keys (F1 – F12), which greatly facilitate the use of multimedia.
