Description

GIRAFFE 2

Is a practical device for users who often participate in video calls and conferences.

Perfect company for video calls

Natec Giraffe 2 is a practical device for users who often participate in video calls and conferences. The omni-directional microphone will allow you to have a conversation almost anywhere and will ensure that you will always be perfectly heard by anyone.

Excellent quality of the transmitted sound

The microphone has an active noise reduction function, which ensures that at any time others can hear your voice extremely clearly and precisely. With clear, distortion-free audio, every conversation will be a real pleasure.

Functional construction

The microphone placed on a flexible headband will allow you to adjust its setting to the individual preferences of the user at any time. In addition, Giraffe 2 has been enriched with an anti-slip base that prevents it from moving over the surface of the countertop.

On/off switch

Thanks to the on / off switch you will take control of the sound transmission! Turn on the microphone to join the conversation, or turn it off when you don't want to participate. Intuitive operation will make it easier to use!

Modern design

Thanks to its small size and universal black design, the microphone will fit perfectly into any office space. What's more, the 1.8 m cable will allow you to move around freely.

GIRAFFE 2

Natec Giraffe 2 is a practical device for users who often participate in video calls and conferences. The omni-directional microphone will allow you to have a conversation almost anywhere and will ensure that you will always be perfectly heard by anyone.
