Description

The Logitech BRIO/Zone Wireless kit combines the world's most advanced webcam with the Bluetooth® headset designed for open workspaces at a price that's right for business.

BRIO delivers outstanding video whether hopping on a quick call or joining a video conference. Add exceptional sound with the Zone Wireless headset and employees are fully equipped for premium-quality video conferencing right from their own desks.

Zone Wireless helps tune out the acoustic clutter of a busy open workspace with a noise-canceling mic that isolates voice from other sounds for clearer conversations. Packed with advanced features that produce outstanding 4K video, BRIO automatically helps users look great in any lighting condition.

With easy controls to manage video calls and business certifications that ensure compatibility and seamless integration, the BRIO/Zone Wireless kit helps employees put their best foot forward in video meetings without ever leaving their desks.
