

PLEASE READ: IMPORTANT ADAPTATION INFORMATION FOR REGIONS

This datasheet is a WW version and several parts may not be relevant to some markets. It is the responsibility of the local teams to ensure it is thoroughly checked and updated with locally relevant content before it can be used in market. Some areas you need to check are listed below.

PLEASE REMEMBER TO REMOVE THIS PAGE BEFORE YOU RELEASE THE DATASHEET IN MARKET

PART 1: CONTENT LOCALIZATION IN 4 STEPS

STEP 1: Features and specifications

- Please check the following content on both pages and make sure they are available in your market, else please localize:
 1. Features
 2. Specifications
 3. Accessories and corresponding images
 4. Services
- Please update the last section on the second page on which other relevant product categories the customer should look at if they feel the current product does not suit their requirement.

STEP 2: Call-to-action changes

- The toll-free number included on each page is a dummy number. Please customize it to your market.
- Please ensure that all the hyperlinks are appropriately working.

STEP 3: Localize legal footnotes

- We try our best to provide guidance on legal footnotes in the WW version especially on standard footnotes and any product claims being made. But it is not practically possible at a WW level to cover all the guidance that can work across multiple geos. It is the responsibility of the local team to check the legal footnotes on both pages and add/remove footnotes per their local legal requirements.
- If you are making any additional product/feature/customer claims, please make sure you support it with the right legal footnotes within the datasheet.

STEP 4: Alliance compliance

- MANDATORY:** Local MDA approvals: The WW version has been made MDA compliant. However, it is the responsibility of the geo/region/country team adapting the datasheet to ensure it's uploaded again for MDA compliance after localization.
- ALLIANCE FUNDING:** If the datasheet is funded by an alliance partner, please adapt the datasheet to those guidelines. You may choose to remove the Intel logo from both pages if the tactic is not being funded by Intel.

PART 2: SEO COMPLIANCE IN 5 STEPS

Pdfs can get indexed by search engines just like a normal webpage. It's important that we optimize them for search, else they may not rank very high in search results. Or may not get indexed and found at all.

Once you have localized the datasheet content (from PART 1 above) and have the pdf ready, we recommend you follow these simple steps to make this datasheet more SEO-friendly, before you upload the datasheet online. It should take you all of 5 minutes.

You need the full version of Adobe Acrobat (NOT Adobe Reader) to be able to do this. Please request your agency to take care of this.

STEP 1: Is the file name clear and self-explanatory?

If you're changing the file name from what is used for the WW file, then make sure it is not too long and gives an easy indication to the reader what the file is about, eg: **Lenovo 65W USB-C Wall Adapter_DS.pdf** is fine but "Lenovo _Vietnam_Hires_53627_convertible.pdf" is not clear.

STEP 2: Has your file metadata been updated?

Go to File> Document properties>Description and update the fields as below:

File - automatically takes the file name you have chosen | Author - Lenovo | Title - Please use - **Lenovo 65W USB-C Wall Adapter**

Subject - Please use - **Portable power for the modern world.**

Keywords - **Lenovo 65W USB-C Wall Adapter, Lightning-fast Power to Your USB-C Devices, PD 3.0, Extra-long 1.7 m (5.9 ft) Cable, USB-C Charging Port, 100-240V ~ 50/60Hz 1.8A Input Power.**

Under Additional metadata (if available in your Adobe Acrobat version), update as follows: | Copyright Status: Choose 'Copyrighted' | Copyright Notice: Copyright (c) 2018 by Lenovo Corporation | Copyright Info URL: <http://www.lenovo.com/legal/copytrade.html> | Under Advanced metadata (if available in your Adobe Acrobat version), update as follows: | Language - choose the appropriate language from dropdown list

STEP 3: Is the reading order correct?

- Select Advanced>Accessibility>Add Tags to Document
- Then, select Advanced>Accessibility>Touch Up Reading Order
- The "reading order" of the PDF is displayed. This shows you what content will be displayed first in a search result. If this is not fixed, sometimes even the legal line can get picked up to display in a search result.
- You can use the same 'Touch Up Reading Order' tool to change the reader order.
- Reading order can be fixed as below – Headline followed by Body copy followed by Why buy section followed by Who buys section.

STEP 4: Have your pdf elements been tagged correctly?

- Go to File>Document properties>Description
- Run an Accessibility Full Check to look for non-compliance.
- Is the body copy on page 1 tagged as text?
- Is the main product image on page 1 tagged as Image/Figure?
- Add the product name as Alt Text to the main product image.

STEP 5: Pdf size and version

1. Total web page weight should not be much more than 1-2MB. If it is more, then go to Advanced>PDF Optimizer and 'right-size' the document.
2. Then select Preferences>General Settings>Optimize for Fast Web View (this allows the PDF to be "loaded" a page at a time, rather than waiting for the whole PDF to download to be able to read).
3. For datasheets which don't have an animated product image on page 1, save your PDF as version 1.6 (Acrobat 7) or lower.

Lenovo 65W USB-C Wall Adapter (EU)

Portable power for the modern world.

Lenovo

Lenovo 65W USB-C Wall Adapter (EU)

Portable power for the modern world.

This remarkably economical Lenovo 65W USB-C Wall Adapter (EU) is the ultimate charging companion for any journey. It ensures lightning-fast power to your USB-C devices, while its adjustable output voltages (5V/9V/15V/20) have you covered no matter what device needs to be charged. Crafted with convenience and portability in mind, its slim size makes fitting it into luggage or backpacks effortless - ensuring reliable access to mobile power on all of life's adventures!

Why you need Lenovo 65W USB-C Wall Adapter (EU)

Faster than ever

With PD 3.0, this adapter can rapid-charge your device at an astonishing 65W - perfect for when you need that extra boost of energy on the fly!

Recharge anywhere

Our extra-long 1.7 m (5.9 ft) cable lets you charge in any spot, making powering up more convenient no matter where you choose to refuel.

Power for all

Thanks to compatibility across a range of Lenovo systems and other USB-C standard products, you can now quickly charge both your laptop or mobile device without hassle.
