

## RVZ03

*REDEFINE SFF  
COMPUTING WITH FLAIR*

Signature RAVEN styled front panel adorned  
with brilliant RGB light strip

### Special Features

- Mini-ITX motherboard & ATX PSU compatible for wide array of building possibilities
- Support cards up to 13 inches (330mm) to fit most high-end GPUs for compute power far exceeding consoles
- Maximum performance in slim form factor with support for AIO liquid cooling
- Positive air pressure design for excellent cooling/quietness and dust-prevention
- Fits in nearly any environment with horizontal or vertical orientation

### Specifications

|                       |                                                                                                 |
|-----------------------|-------------------------------------------------------------------------------------------------|
| <b>Model</b>          | SST-RVZ03B                                                                                      |
| <b>Material</b>       | Reinforced plastic outer shell, steel body                                                      |
| <b>Motherboard</b>    | Mini-DTX, Mini-ITX                                                                              |
| <b>Drive Bay</b>      | Internal 2.5" x 4"                                                                              |
| <b>Cooling System</b> | Top 1 x 120mm fan, 1500rpm, 18dBA<br>Bottom 1 x 120mm fan, 1500rpm, 18dBA<br>1 x 120mm fan slot |
| <b>Expansion Slot</b> | 2                                                                                               |
| <b>Front I/O Port</b> | USB 3.0 x 2 / Audio x 1 / MIC x 1                                                               |

|                                 |                                                                                                    |
|---------------------------------|----------------------------------------------------------------------------------------------------|
| <b>Power Supply</b>             | Optional PS2 (ATX)                                                                                 |
| <b>Expansion Card</b>           | Compatible up to 13" (330mm) long,<br>width restriction-5.88" (149mm)                              |
| <b>Limitation of CPU cooler</b> | 83mm                                                                                               |
| <b>Limitation of PSU</b>        | 150mm**                                                                                            |
| <b>Dimension</b>                | 382mm (W) x 105mm (H) x 364mm (D), 14.6 Liters<br>15.04" (W) x 4.13" (H) x 14.33" (D), 14.6 Liters |
| <b>Extra</b>                    | Support Kensington lock, PCI Express riser card set x 1 (V1.3)                                     |

\* 2.5" drive on center bracket may be difficult or impossible to install due to power supply cable interference, we recommend using 140mm deep or shorter modular power supply with flat cables

\*\* Maximum length for power supply is 150mm but we recommend 140mm deep power supply due to varying connector locations and the unique structure of RVZ03. Due to the use of internal power cord extension, we recommend not to exceed 800W when powering off a 110V outlet (no limit for 220V)
