First: Faster, Second: Fourfold!

USB 3.0 has a bandwidth of up to 5 Gbit/s. That makes it up to 10 times faster than USB 2.0. With this hub you can use the fast USB 3.0 for four devices.

USB 3.0 is downwardly compatible, it fits also USB 2.0 cables and devices (with lower transfer rates). The Hub is buspowered so it is usable without power supply and the ideal extension on the move.
