

reflecta® Super 8 – Normal 8

Never has it been easier to save old film treasures and digitize them as it is now: select Normal 8 or Super 8, place your film reel inside and start the reflecta Film Scanner Super 8—Normal 8.

The film is scanned with a speed of two pictures per second, frame by frame, and saved directly on the SD card as an MP4 video in HD quality.

No computer or software needed!

The digitized films can now easily be played on all smartphones, tablets or PCs. The scanner can also be hooked up to a television to view the films directly.
