FUSCDP2M	• Space Grey	2m

Built for Ultra High Definition

With support for 4K video at a smooth 60Hz, this cable is built for delivering crisp ultra-high-definition images to your screens.

The cable's premium braiding has been custom engineered for maximum durability, to end the wasteful cycle of endlessly rebuying substandard cables after just a few months of use. Its reversible, low-profile nickel-plated connector is designed withstand the stresses of daily use for years to come and the entire cable is protected by a 2-year warranty.

Perfect for USB-C Laptops

With DP Alt Mode 1.2 support, this cable is perfect for connecting Thunderbolt or USB-C laptops and tablets to DisplayPort monitors.

User Interface

Connector 1	USB-C (Male)
Connector 2	DisplayPort(Male)
