# Meet Google TV Streamer (4K)

Our most advanced streamer yet delivers your favorite entertainment quickly, easily, and personalized to you.<sup>‡</sup>

## Premium performance and design.

- Enjoy a cinematic experience with support from **4K HDR** and **Dolby Vision**.\*
- The stylish design means Google TV Streamer (4K) can be placed prominently in the room, and the **redesigned voice remote** is easy to use and comfortable to hold.
- It's powered by our most advanced hardware yet, with **32 GB of storage** for apps, **double the RAM**, and a **22% increase in CPU performance**.<sup>^β</sup>

## All of your entertainment in one place, tailored to you.

- **Google TV** brings together over 700,000 movies and shows, plus 800+ free channels, live TV, and music.<sup>†</sup>
-  Get **tailored recommendations** for everyone in your home based on individual interests and viewing habits, and add interesting shows to your **Watchlist** to enjoy later.<sup>‡</sup>

## The center of your smart home, powered by Google.

- Manage compatible smart home devices without leaving the sofa with the **Quick Settings Dashboard**.<sup>Ⓞ</sup>
- **Matter** support enables seamless compatibility between devices from different brands. If you have Nest cameras or doorbells, you'll be able to live stream directly to your TV to keep an eye on what's going on around your home.
- A built-in **Thread border router** creates a reliable, low-power network for your smart devices.

\* Google TV Streamer (4K) requires a TV with an HDMI port, HDMI 2.1 cable, a Wi-Fi network, a Google Account, a nearby electrical outlet, and a compatible mobile device. Minimum OS requirements are available at [g.co/cast/req](https://g.co/cast/req).  
<sup>†</sup> Subscription services may be required. Services not available in all areas or regions, and are subject to change. <sup>‡</sup> Subscription services may be required. <sup>β</sup> Compared to Chromecast with Google TV devices. <sup>^</sup> Storage specifications refer to capacity before formatting. Actual formatted capacity will be less. <sup>Ⓞ</sup> Requires compatible smart devices.

# Google TV Streamer (4K) features

Check out some of the feature highlights on Google TV Streamer (4K).

## High quality streaming

Experience true-to-life detail with **4K HDR** enhanced by **Dolby Vision**, with **HDMI 2.1** support for smoother viewing with higher resolutions and faster refresh rates.<sup>§</sup>○

## Immersive audio

**Dolby Atmos** support enhances your audio experience with immersive, 3D sound and precise placement of audio elements, even when wearing **Pixel Buds**, thanks to **Spatial audio**.<sup>○</sup>Д

## Ethernet port

Connect directly to your router for a **fast, reliable connection** without the fear of buffering or lag.

## Voice Remote

Open your favorite app or the **home panel**, or switch inputs with a press of a button. Misplaced your remote? Make it ring simply by pressing a button on your Google TV Streamer or asking Google.<sup>Ⓛ</sup>И

## Voice search across services

Pull up shows, movies, and YouTube videos from your streaming services, just press the **Google Assistant button** on the voice remote and ask.<sup>Ⓛ</sup>

## Connected media

**Cast and transfer media to your TV**, use speaker groups, and connect Pixel Buds Pro. Start watching something on your phone on the go, then seamlessly switch to a bigger screen when you get home, with one tap.\*

## Premium Box Design

The **sleek design** blends beautifully with any decor, and is made with at least **65% recycled plastic**.<sup>Г</sup>

<sup>§</sup> Requires a TV with an HDMI port, HDMI 2.1 cable, a Wi-Fi network, a Google Account, a nearby electrical outlet, and a compatible mobile device. Minimum OS requirements are available at [g.co/cast/req](https://g.co/cast/req). To view content in 4K, a 4K-capable TV and reliable broadband internet connection are also required. <sup>○</sup> Dolby, Dolby Vision and Atmos are trademarks of Dolby Laboratories. <sup>Д</sup> Spatial audio requires Pixel Buds Pro and compatible app and supported content. See [g.co/pixelbudspro/help](https://g.co/pixelbudspro/help) for details. <sup>Ⓛ</sup> Google Assistant may be required for full functionality. Requires a smart device with Google Assistant. <sup>И</sup> Requires compatible smart devices. Some features, including mobile notifications, remote control, video streaming and video recording, require working internet and Wi-Fi. <sup>Г</sup> Recycled plastic is at least 19% of product based on weight (excludes remote device). \* Google TV Streamer (4K) requires a TV with an HDMI port, HDMI 2.1 cable, a Wi-Fi network, a Google Account, a nearby electrical outlet, and a compatible mobile device. Minimum OS requirements are available at [g.co/cast/req](https://g.co/cast/req).

Do you want to enhance your home entertainment?

Would you like to watch your favorite streaming shows and movies with cinema-quality audiovisuals?

Experience cinema-quality audiovisuals thanks to the true-to-life detail of **4K HDR** enhanced by **Dolby Vision** and immersive **Dolby Atmos 3D sound**.<sup>§</sup>○

Have you ever misplaced your TV remote?

Would you like an easy way to find your remote?

With **Find My Remote**, there's no more frantic searching when your remote has been tidied away or slipped under a sofa cushion.<sup>‡</sup>

Do you find it frustrating when your show buffers due to a poor connection?

How about a solution that offers smooth streaming without interruptions?

Google TV Streamer (4K)'s ethernet port lets you connect directly to your router for fast, reliable streaming without buffering or lag.

# Customers might ask...

## How does Google TV Streamer (4K) compare to Chromecast?

Google TV Streamer (4K) offers a **sleek, premium design** that blends seamlessly into home decor, a redesigned user-friendly remote, sustainable materials, and **50% lower power consumption** in standby mode. At its price point, it feels like a true upgrade. With improved connectivity, storage, performance, and **Matter** and **Thread** technology, Google TV Streamer (4K) ensures a smoother, more immersive viewing experience and seamless integration with all your devices.<sup>1</sup>

## How does Google TV Streamer Voice Remote improve on the previous Chromecast remote?

Based on customer feedback, the redesigned remote offers several improvements. The customizable button allows you to open your favorite app, access the home panel, or switch inputs with a press of a button. Plus it also includes a new **Find My Remote** function.<sup>2</sup>

## Why is Chromecast now in a box, not a dongle?

The **premium box design** blends seamlessly with your home while offering better smart home connectivity. The box form also allows for **additional ports**, including **ethernet**, for a smoother and more reliable internet connection.<sup>1</sup>

## I already watch shows from my streaming apps. Why would I use Google TV?

**Google TV** builds an understanding of what you like to watch based on your interests and viewing habits and uses **Google AI** to help recommend your next favorite show, and age-appropriate recommendations for all the family. It helps you to find the content you love, quickly and easily, so you spend less time searching and more time watching. It assembles content from across all your apps and lets you build your **personal watchlist** so you can keep track of what to watch next.<sup>3</sup>
