# MILO SERIES

Slim Mini-ITX case for gaming HTPC

ML07

## Introduction

Based on the revolutionary RAVEN RVZ01 chassis, the Milo ML07 is a Mini-ITX HTPC case with compact form factor and powerful potentials. Utilizing an advanced layout designed for maximum performance and a PCI-E riser, the slim, 14 liter ML07 is capable of housing the biggest consumer graphics card on the market and the ability to support liquid cooling\*. Designed for use in either vertical or horizontal orientation, it can be placed comfortably in any space-constrained home theater environment that requires a powerful PC. For those looking to build a cleanly-styled HTPC with gaming or more powerful components in small form factor, the ML07 is the perfect solution.

## Feature Photos
