

ALIENWARE PRO WIRELESS GAMING KEYBOARD

The Alienware Pro Keyboard is the result of 18 months of iterative design, research, and testing between Alienware and over 100 esports professionals to create our most advanced keyboard to date: new custom Alienware Switches, 75% form factor, and hot-swappable switches.

AVAILABILITY:

January 11, 2024 (NA, CN, Brazil, EMEA)

February 27, 2024 (TW, HK, APJ)

April 17, 2024 (LATAM)

PROFESSIONAL APPROVED FORM FACTOR

- Our new and custom **Alienware Linear Mechanical switches** are designed to compete while providing a satisfying experience:
 - Light actuation force of 40g for fast response times while maintaining a 100 million keystroke lifespan¹
 - Smooth keystrokes eliminating the rough and scratchy sound you hear with traditional mechanical switches thanks to pre-lubrication and PoM (Polyoxymethylene) material in the stem.
 - Fully transparent switch housing for vibrant RGB lighting
- **Compact 75% form factor** leaving more room for long mouse swipes and easy adjustments during long sessions while maintaining all the essential keys.
- **Two silicone sound dampening layers** to remove the echo you may hear with traditional hollow mechanical keyboards and to create a cleaner and richer typing sound.
- Stable 1KHz polling rate with long lasting battery: up to **72hrs with default lighting² and up to 798hrs with RGB off³**
- A long **silicone strip on the front edge** of the keyboard to provide stability in intense moments.
- Made with 47% post-consumer recycled plastic⁴.

CUSTOMIZATION AND ESSENTIALS

- **Hot-swappable switches** with a 5 pin PCBA means you can customize the sound, feel, and actuation of your keyboard with nearly all 3 and 5 pin switches.
- Durable **Double-shot PBT Keycaps** material with key legends and colors molded into the cap for exceptional wear resistance.
- **Tri Mode connectivity** to seamlessly swap from work to play via 2.4GHz wireless, 3x Bluetooth 5.1 connections, or USB-C Wired connections.
- Tilt legs to adjust for comfort and provide multiple typing angles.
- Utilize **Alienware Command Center** to further customize your keyboard colors, profiles, and more.

ITERATIVELY DESIGNED WITH PROS

- Developed in partnership with over **100 professional gamers including Team Liquid**, the winningest team in Esports history. This ensures our peripherals meet the demands of competitive gamers.
- **Iteratively designed** between engineers, product managers, and esports pros for continual feedback and improvement on our most advanced peripherals to date.

ALIENWARE™ 

FEATURES AND TECHNICAL SPECIFICATIONS

ALIENWARE PRO WIRELESS GAMING KEYBOARD

Device Type	Keyboard
Form Factor	75%
Connectivity	2.4GHz Wireless Dongle
	Bluetooth 5.1
	USB Wired
Battery Life ² – RGB Lighting at 50% Brightness	Up to 72 hours (2.4GHz)
Battery Life ³ – RGB lighting off	Up to 798 hours (2.4GHz) / Up to 1800 hours (Bluetooth)
Keyboard Technology	Linear Mechanical
Key Switch Type	Alienware Linear Mechanical Switches
Lighting	Per-key 16.8 Million RGB, AlienFX ⁶
On-Board Memory	5 profiles ⁶
Sound Dampening	Two silicone layers
Cable Type	2m USB-A to USB-C paracord cable (detachable)
Colors	Lunar Light
	Dark Side of the Moon
Adjustable Height	Yes; 2-steps
OS Required	Windows 10 or up
Software Required	For customization only: Alienware Command Center ⁶
Lubrication	Pre-lubricated in factory
Actuation Force	40g
Features	Hot-swappable design, two sound dampening layers, detachable USB paracord cable, wireless dongle extender, Alienware Linear Mechanical Switches, PBT double-shot keycaps, on-board memory, full anti-ghosting, N-key rollover, fully programmable keys, Windows key disable, 16.8 million RGB AlienFX lighting
Dimensions - W x L x H	12.30" x 5.00" x 1.60" (31.24cm x 12.70cm x 4.06cm)
Weight ³	1.81 lbs (819.73g) ⁵
Service and Support	Limited 2-year warranty

¹Based on testing completed November 2023 at third party testing facility. Actual lifespan life will vary based on settings and usage.

²Based on testing completed September 2023 at third party testing facility with default status of 50% RGB brightness. Actual battery life will vary based on settings and usage.

³Based on testing completed September 2023 at third party testing facility. Actual battery life will vary based on settings and usage.

⁴Based on internal analysis, October 2023. The percentage is based on plastic weight.
