OVERVIEW

Adjust Pro Hub

Connect to Adjust Pro

Effortlessly control your Fractal fans and RGB components without running background software. With the ability to connect RGB components and fans, such as Momentum series, Adjust Pro Hub acts as a plug-and-play bridge between components and our intuitive web-based configuration tool Adjust Pro. Once connected, simply visiting the Adjust Pro site enables the easy configuration of fan speeds and lighting settings with dynamic themes, animation modes, and startup effects – with all preferences saved locally on the device, removing the need to run software.

Key features

- ▶ Connect your compatible devices to Adjust Pro – an intuitive, web-based configuration tool
- ▶ Adjust your fan speeds and set custom curves via your web browser for effortless cooling and noise management
- ▶ Access advanced lighting customization, with dynamic themes, animation modes, and startup effects
- ▶ Store your fan and lighting preferences locally on the device, without running background software
- ▶ Effortlessly connect components via the four integrated output ports, with daisy chaining support for larger setups
- ▶ Control the lighting of up to sixteen ARGB Gen 2 devices or 400 LEDs simultaneously
- ▶ Connect ARGB/PWM devices via the included legacy splitter cable
- ▶ See device status at a glance through the built-in LED indicator
- ▶ Fastens magnetically and has grippy rubber feet for firm and flexible placement

Specifications

Specification	Adjust Pro Hub
Input power	SATA (12 V + 5 V)
Max output current	12 V DC – 2 A
	5 V DC – 4,5 A
Output connector	4-pin PWM connector
	Micro-USB
Output support	Fractal Connect (proprietary connector)
System requirements	4
Output support	Up to 16 ARGB Gen 2 devices (four per channel) with maximum total of 400 LEDs combined across all channels
System requirements	PC with available internal USB 2.0 header, Chromium-based web browser, SATA-power cable from PSU

Package contents

Adjust Pro Hub		Quantity
Adjust Pro Hub		1
Extension cable	500 mm (male-to-female Fractal Connect cable)	2
Legacy splitter cable	150 mm (male Fractal Connect to male 4-pin PWM/3-pin ARGB header)	2
USB Cable	500 mm USB to motherboard cable	1
PWM Cable	500 mm PWM cable	1
User manual		1
