Funky, powerful and made responsibly

- Philips Entertainment app. Smart control for your speaker
- RCS-certified recycled plastic. Responsible packaging
- Dimensions: (H x W x D) 9.65 x 24.2 x 9.5 cm

Highlights

Powerful sound

Inside or out, this portable speaker packs a punch with 70 W max (35 W RMS) of rich sound. Twin passive radiators and our exclusive Bass+ technology keep the bass deep and tight—even if you're listening at lower volumes. There's also a built-in mic, so if a call comes in, you can take it hands-free.

Swappable battery, power bank

The rechargeable lithium-ion battery in this speaker allows up to 24 hours of play time and can be easily swapped out when it reaches the end of its life. A 30 minute charge gives you 6 hours of play time, and a full recharge takes around 4 hours. If your phone's running low on power, you can use the speaker's built-in power bank to charge it up again.

Bluetooth® 5.4, USB playback

Playlists ready? Bluetooth® 5.4 brings you a steady connection for seamless streaming. Multipoint lets you connect to two devices at the same time, and you can connect a portable music player to the speaker's USB-C port.

TWS and Auracast™ compatible

Want more? For a wider soundstage, you can pair with another TAS5000E speaker for True Wireless Stereo (TWS). Or go bigger and use Auracast™ to broadcast what you're playing to as many other compatible speakers as you could ever need: the LC3 codec is supported for better sound, and setup is simple via our companion app.

IP67 dustproof/waterproof

With an IP67 waterproof and dustproof rating plus a tear-resistant wrist strap, this powerful portable speaker is built to take the good times everywhere. You can spill drinks on it, roll it down a sand dune or even drop it in the pool. It comes up dancing every time.

Beat-synced party lights

As the beats flow, colourful RGB LED lights pulse over and around the twin passive radiators. There are five different light modes to choose

from. Simply press the light button on the speaker or use our companion app to get started—and let everyone know you came to party.

Philips Entertainment app

Our handy companion app lets you select a source, control playback and Bass+, tweak the bass and treble, switch between different light modes, check battery life and more. Plus, an in-app PartyLink mode makes it simple to connect to other speakers via Auracast™ for even bigger sound.

Recycled materials

We use post-consumer recycled plastics in this product, and our packaging is plastic-free. Inserts are printed on recycled paper with soy-based ink, and the packaging itself is made from FSC-certified recycled cardboard.
