

USB 3.1 Gen 1

JetFlash[®] 760

Using advanced USB 3.1 Gen 1 technology, the extremely fast JetFlash 760 allows you to transfer, store and share numerous or large files quicker than ever before. The sliding USB connector not only protects the drive and its contents, while doing away with that easy-to-lose end cap.

Classic chic design

The JetFlash 760 features a classic streamlined design with a sliding USB connector in a balanced mix of form and function.

Retractable connector

USB end caps are easy to misplace, and so, for extra convenience, Transcend's JetFlash 760 comes in a capless, retractable design that not only protects the device and its contents, but is compact and easy to carry around.

USB 3.1 Gen 1 JetFlash[®] 760
