

4-Port Multi Monitor Adapter - DisplayPort 1.2 MST Hub - 4x 1080p - DisplayPort Video Splitter for Extended Desktop Mode on Windows PCs Only - DP to Quad DP Monitors

Product ID: MSTDP124DP

This MST hub lets you connect four monitors to your DisplayPort (DP) 1.2 equipped Windows laptop or desktop.

The newest generations of computers are more portable than ever, which often means that you're left with fewer video outputs and smaller integrated screens. This MST hub solves both of these problems by letting you connect four additional displays to your computer, which makes multitasking much easier.

With the MST hub, you can use DisplayPort video adapters and cable adapters that enable you to connect HDMI, VGA or DVI displays. This ensures your MST hub will be compatible with virtually any television, monitor or projector. This MST hub is VESA and DisplayPort certified to support DP 1.2 enabled systems, for seamless integration with your existing video equipment.

Using the MST hub, you can extend your desktop onto additional monitors and stream independent content to each display giving you the freedom to multitask and increase your productivity. You can also mirror the same image onto multiple displays for remote viewing applications such as digital signage.

MST technology uses your existing video card to minimize the use of system resources while delivering Ultra HD 4K resolutions. This unprecedented performance makes MST perfect for high-resolution applications such as graphic design, gaming and medical imaging.

The MSTDP124DP supports plug-and-play installation for a hassle-free setup, and is backed by a StarTech.com 3-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Build a four display video wall to present entertainment to your patrons with an impressive display at a restaurant or shopping center
- Use one screen for reference data such as websites, while composing a report on another screen
- Dock your DP 1.2 device and add four high-resolution displays to your workstation
- Create a panoramic video wall for DisplayPort digital signage applications
- Edit images, video or audio clips across four additional displays in any orientation or resolution
- Perfect for spanning a spreadsheet/worksheet across additional displays, to avoid side-scrolling

Features

- **MULTI MONITOR ADAPTER FOR WINDOWS:** 4-port DisplayPort MST hub drives up to four DP displays in extended or duplicate mode using a DP port on Windows desktop PCs or laptops. Not compatible with macOS
- **DISPLAY RESOLUTION:** Quad monitor DisplayPort MST hub supports HD resolutions up to 1080p 60Hz on all four monitors
- **COMPATIBILITY:** 4-Port DisplayPort MST video splitter works with laptops, computers or desktop graphics cards. Requires host system with DP 1.2/HBR2/MST or later from HP, Dell & Lenovo and AMD, Nvidia & Intel video cards
- **INCREASE PRODUCTIVITY:** Increase productivity by extending your desktop at your workstation in the office/home office. MST technology uses your GPU/video card performance to deliver uncompressed video and use minimal system resources
- **EASY TO USE:** Quad monitor adapter natively supports 4x DP monitors; Works w/Windows only and provides an easy driverless setup. Latching DisplayPort connector ensures a reliable connection and prevents accidental disconnection
- **CONVENIENCE:** MST (multi-stream transport) hub is equipped with a built-in 7.5" (19cm) cable for video (DisplayPort) and an AC power adapter. Supports LPCM digital audio
- **GPU CAPABILITIES:** Please check your system's GPU capabilities to determine max number of displays supported; Some GPU chips (such as Intel HD Graphics) are not capable of supporting four displays
