Description

RJ-4250WB Rugged 4" Mobile Printer

Rugged, reliable, ready for work. For busy mobile workers who need a durable and reliable 4 inch mobile label/receipt printer with USB, wireless and Bluetooth connectivity.

The RJ-4250WB mobile label and receipt printer raises the industry standard with a smart new way to manage and deploy printers. With market leading technology, performance, ruggedness and connectivity, this fast mobile printing solution is designed to meet the needs of the busy workforce.

The mobile deploy cloud-based app for mobile devices allow IT administrators to remotely update and configure multiple Brother mobile printers out in the field.

Available on (iOS and Android™)

Users can print labels, tags, invoices, quotes, receipts, and more on the spot, with convenient Bluetooth and wireless connectivity that saves valuable time.

The RJ-4250WB is the second of our 4 inch mobile printer range, featuring both Bluetooth and wireless connectivity. The device is lightweight, durable, easy to use and serves a number of applications, including; invoices, on-the-spot notices or fines, shipping labels and statements of work.

It comes packed with features, offering a fast print speed of 5ips/127mm per second and direct thermal technology which requires no ink or toner. The machine comes with IP54 certification (an ingress protection rating, which offers protection against dust and water sprayed from all directions), has undergone 2.1m drop tests and weighs just 850g, ensuring employees aren't struggling with bulky kit.

Designed for tough jobs

The whole of the RuggedJet range carries IP54 certification offering that extra peace of mind for such environments, meaning every model is dust-proof, splashproof and has been drop tested up to 2.5m.

Fast, easy mobile device management

Mobile Deploy is a cloud-based app that performs a complete printer configuration using a smart phone or tablet. The update process is easy, requiring a simple push of a button by the printer operator and Mobile Deploy transfers the full update and configuration. Companies can now maintain and update their entire fleet of Brother mobile printers simultaneously and instantaneously with a click of a button.

On-demand printing

Leave receipts with your customers in a timely manner on completion of work, or when items are delivered. Increase the efficiency of your mobile operatives within field service, retail, public safety, transport and logistics or warehousing.

Wi-Fi, Bluetooth and USB connectivity

The RJ-4250WB has a range of integrated connectivity options including Bluetooth (with support for Apple MFi). Connect to your Wi-Fi network or set the printer to use Wireless Direct mode where a wireless network is unavailable. For Windows based PC's a USB port is provided for reliable connectivity.
