iBOX IKGMK4, Standard, USB, Mechanical, QWERTY, RGB LED, Black,Silver

USB - 108 keys - Mechanical - QWERTY - 435 x 123 x 38.5 mm - Silver/Black

Group	Input Devices
Manufacturer	iBOX
Manufacturer item no.	IKGMK4

Description

Enter the highest level of gameplay thanks to the full-size mechanical gaming keyboard iBOX Aurora K-4 equipped with RGB backlight. It uses red switches with a long service life of up to 50 million presses. The upper keyboard housing is made of aluminum. You can turn off the backlight, adjust the brightness and adjust the patterns to your needs. Each key can be assigned any color. The keyboard has a magnetically attached palm rest which reduces hand fatigue during prolonged gameplay. The Aurora K-4's unique feature is the built-in backlight or volume control knob. The Fn key allows you to use the function buttons for multimedia tasks (player control, launching the web browser, etc.). Keyboard software is available in Polish, English, Slovak and Romanian. It lets you record macro commands, assign properties to buttons, and select a backlight mode. The keyboard has full anti-ghosting (N-Key Rollover). It's the perfect product for every advanced player. The ability to block Win + L combinations will prevent you from accidentally locking your computer at the least appropriate moment during the game.

Main features

General	
Keyboard form factor	Standard
Keyboard style	Straight
Device interface	USB
Keyboard key switch	Mechanical
Keyboard layout	QWERTY
Keyboard number of keys	108
