HA Gasliftarm Single

Fully moveable Desktop Monitor Mount

Item no.: 8702

The HA Gasliftarm Single is a table mount for a monitor from 17 - 43“ / 43 - 109 cm.

The construction is made of high quality, durable aluminium. Thanks to the extremely smooth-running gas springs that can be adjusted to the weight of the device, it is also fully moveable.

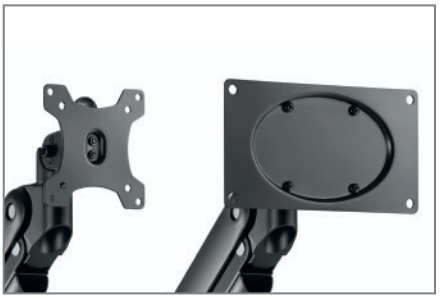
The monitor can be moved effortlessly, almost floating, into any desired position with just the fingertip.

The tilt angle is variably adjustable ±45°. In addition, the screen format can be continuously changed.

The VESA universal mount supports monitors with 75 x 75 and 100 x 100 mm. An adapter for VESA 200 x 100 mm is also included in the scope of delivery. This makes the table mount perfect for larger monitors.
The cables of the built-in components can be laid along the swivel arms and neatly fixed with clips.

Either clamp or screw mounting through the table top is possible. Both versions are included in the scope of delivery.

The surface of the aluminium mount is finished with an impact- and scratch-resistant powder coating in black.



VESA 75 x 75, 100 x 100 mm;
200 x 100 mm possible with the included adapter

electively clamp or screw mounting

space-saving and practical
