Description

Astonishing overclockable 280Hz refresh rate means the display is almost twice as fast as conventional 144 Hz monitors. You'll experience amazingly-fluid gaming visuals, giving you the upper hand in first-person shooters, racing, real-time strategy and sports titles.

ASUS FastIPS Display allows the display's liquid crystal elements to switch up to 4X faster than conventional IPS panels for improved response. With a 1 ms gray-to-gray response time, smearing and motion blur are virtually eliminated. This display also delivers superior images with outstanding colors thanks to DCI-P3 95% color gamut and an astounding 1,000:1 contrast ratio. Wide 178-degree viewing angles ensure minimal distortion and color shift even when you're viewing from extreme positions.
