0.48 oz (13.6 g)

The Noise Isolating Stereo Earbuds from V7 offer hi-fi sound quality with deep base, a perfect choice for use with any device with a 3.5 mm audio port. The earbuds, crafted from durable aluminum, include comfortable gel ear cups to limit external noise. The V7 HA111 also includes a space-saving, right-angle 3.5mm connector. The in-line microphone gives clear sound, and includes built in controls: play/pause, call answer/end - to listen to music or take phone calls easily.
