EAN/UPC	5901969402834

Description

NOISE REDUCTION

What characterises the Adder microphone is, above all, noise reduction, which significantly improves the quality of the transmitted sound.

In addition, the product has good sensitivity parameters (-55 dB), which allows it to fulfil its main tasks well.

STABLE STAND AND LONG CABLE

The Adder microphone has a stable and strong stand, thanks to which we can set it in the most convenient place for us, without fearing that the microphone will fall in the least expected moment. Also, a 1.8 m long cord gives us a lot of possibilities when setting up the microphone.

FOR CONFERENCES AND KARAOKE

Adder is universal equipment. Perfect for the office and karaoke with friends
