Description

Wireless keyboard with a trackpad

Wireless MC-TPK1 keyboard is a perfect solution for a living room or a mobile office. In spite of its small size and light-weight, the keyboard is equipped with all features that are necessary for convenient typing and computer use. MC-TPK1 keyboard is equipped with full set of keys and large integrated multi-touch trackpad. Thanks to these features, typing, swiping, zooming-in and clicking is easy and convenient.

Quick multimedia functions enabling makes it easy to surf the Internet, access your favourite video, image and music files.

Built-in multitouch trackpad

Built-in multitouch trackpad making is very easy and intuitive to surf the Internet or use multimedia apps. In order to provide maximum work convenience, trackpad is positioned on a big surface: 93.2 x 80.4 mm. Trackpad may be used in two ways: as a computer mouse or as a touchscreen as it is in mobile devices.

Keys with scissor-switch mechanism

MODECOM MC-TPK1 keyboard was equipped with full set of keys based on scissor switch mechanism. This type of mechanism is recommended for those who value aesthetics and convenience in use. The application of scissor-switch mechanism enabled to reduce the size of keys and the size of the whole keyboard at the same time. This type of solution is commonly used in laptops and low-profile keyboards.

In comparison to standard membrane keyboards, it is more solid and

durable.
Scissor-switch mechanism provides more joy when used.
