

## DESCRIPTION

The Tracer FINA 84 mechanical keyboard (Outemu Red switches) is the perfect solution for anyone looking for comfort and more desk space.

### Basic features

- TKL keyboard: 84 keys
- Outemu Red mechanical switches
- Replaceable PBT KEYCAPS
- Full anti-ghosting.
- Rainbow backlight: (top)
- TRIPLE MODE (3 connectivity options)
- Built-in high-performance battery: 1850 mAh lithium

### TKL size

TKL stands for tenkeyless, which means the keyboard doesn't have the numpad. With 84 keys, it can save about 25% of desk space compared to a full-size keyboard. This type is popular among gamers and typists

who prefer smaller devices without the numeric keypad.

### Outemu Red mechanical switches

This keyboard comes with Outemu Red mechanical switches, which guarantee outstanding durability. You can count on about 50 million keystrokes. Switch profile:

- Switch type: linear
- Force: 45 +/- 10 gf
- Actuation: 1.2 +/- 0.5 mm
- Total travel distance: 3 mm

### PBT KEYCAPS

The PBT KEYCAPS in this keyboard are easy to replace.

The material of the keys, PBT (polybutylene terephthalate), makes them very durable and resistant to scratching. It is critical for gamers who use the keyboard often and intensively.

The PBT KEYCAPS are easy to replace without any tools. Just pull out the old keycap and put a new one in. This way, you can easily adapt the keyboard to your needs and preferences.

### ANTI-GHOSTING

The ANTI-GHOSTING function allows you to press several keys simultaneously, which is a must for gaming.

### Rainbow backlight

With the top Rainbow Backlight, you can

- fine-tune the keyboard's colours to your visual preferences.
- Preprogrammed effects. Adjustable light intensity and dynamics.
- The light can be turned off completely.

### TRIPLE MODE

The keyboard offers three ways to connect to the PC: cable (1.5 m USB-C included), 2.4G (receiver included), and three BT 3.0 and 5.2 channels, which improves its functionality and usability.

### Other details

The built-in 18,500 mAh lithium battery adds to the comfort of use by powering its backlight effects for a long time.

In short, the Tracer FINA 84 Grey Mechanical Keyboard (Outemu Red switches) combines functionality,

convenience, and comfort of use, which makes it perfect for any user.
